May 29th - 2018

4 Elliott Waves MANUALS with 12 months FREE COACHING

Dr Mircea Dologa's Educational BINOMIAL of Professional Trading

Most of the professional traders claim they have improved their profitability by more than 40% since using the Elliott waves techniques.

Our objective is to offer the average trader *an original system of training* based on a **BINOMIAL: 4 MANUALS and FREE COACHING** over a period of **12 months**.

It took us about four years of hard work to conceive and write these four volumes (2102 pages, 2334 charts and 116 Excel tables).

Over this period of time the author's ambition was to come up with a method to *take the trader from the starting blocks to the summit of his or her career as a professional trader!*

These volumes are based on the author's experience and research spanning more than two decades. The knowledge acquired over this period has allowed him to always be one step ahead of the crowd. Therefore, the four volumes are written from the point of view of the active trader whose main concerns are risk and capital management. The author is convinced that this principle makes a real difference when it comes to professional trading. His trading framework has the roots from more than 80 years of trading research done by illustrious traders and mentors such as Nelson R. Elliott, A.J. Frost, R. Prechter, Glenn Neely and Zoran Gayer.

Being the entrepreneurial person that you are - *otherwise you wouldn't be reading these lines* - your mind is set on studying and mastering the Elliott Wave techniques! Don't hesitate... These volumes come with Free Coaching over a period of 12 months provided by the author!

The road to success is long, winding and full of pitfalls. But if you're really determined and willing to put a lot of time and effort into reaching this goal, you'll be handsomely rewarded eventually. Don't forget that a trader is forever a student of the market!

Dr Mircea Dologa, MD, CTA, Paris-France

Dr Mircea Dologa teaching at West University-FEAA, Timisoara

Why the Professional Traders use the Elliott Wave Technique?

Most of the professional traders claim that they have improved their trading profitability by more than 40%, since they use the Elliott wave techniques.

Based on more than 25 years of trading & teaching experience, our current objective is to offer the trader *an original system of training* based on the following *Educational Binomial*:

Manuals with **FREE COACHING** over a period of **12 months**.

If interested in learning and professionally practicing the Elliott waves, you can download below, **EXCERPTS** of **Volume 1**, including **discount prices** of Dr Dologas's Elliott wave books (*refer to link*):

4 Manuals with **FREE Coaching** (2 145 pages and 2 400 charts & 158 Excel & tables files)

(if link or download problems please email mircdologa@yahoo.com)

Common sense incites us to acquire a consistent technique that will give us confidence and help, in order to obtain consistent profits. For the experienced traders, the merit of **Elliott wave technique** is obvious. Most of them increased their profitability by more than 40% since using the Elliott waves. But increasing profitability is a question of method, not only on assimilating this technique, but also on practicing it.

After several decades of practice and teaching, we have decided to share our research and experience with the trading community colleagues. We firmly believe that the intelligent **Elliott Wave Practice** is one of the most reliable and consistent techniques for the astute trader. It harmoniously respects and obeys the four principles enumerated below:

- Finding where the market is coming from, where it is located now and where it is heading,
- Defining a time-price ethereal space as the trading arena of the market flow evolvment,
- Revealing an ubiquitous usefulness in trending & sideways market movements, and finally
- Accomplishing an ergonomic and profitable intricacy with risk and money management.

About us:**Email:** mircdologa@yahoo.com

Dr Mircea Dologa began his investment and trading career in 1987, in pharmaceutical and real estate industries. Once he passed the Series 7 and Series 3 exams, he obtained the two indispensable trading licences controlled by United States Government: the *Registered Commodity Trading Adviser (CTA) Licence* and *Registered General Securities Representative - Investment Adviser Licence*. During the training periods, he realized the scarcity in financial literature and trading seminars, of the true 'know how' practical tools. After reading hundreds of books and attending numerous seminars, the same question kept popping up: *Where is the meat?* Most of the time, besides the classics... it wasn't there!

As a registered Commodity Trading Advisor (CTA) with National Futures Association of U.S.A., he founded a *new teaching concept*, based on practical aspects of trading, for both newcomers and experienced traders.

He published more than 100 articles and he is an international contributor to trading magazines in the USA ('*Technical Analysis of Stocks & Commodities*', '*Futures*' and '*eSignal.com Education Section*'); the United Kingdom ('*The Technical Analyst*'); Germany ('*Traders*' – English- and German-language editions); Australia ('*Your Trading Edge*') and Asia ('*The Trader's Journal*'). He is also the founder and the president of www.pitchforktrader.com – a specialized trading website.

Dr Mircea Dologa has written seven books, over 3 300 pages, 3250 charts and 150 Excel trading files, in his quest to efficiently teach the trading art, from the beginner's level to the highest nowadays standards – the professional level. The author's main thought during these seven years of planning, conceiving and writing these trading books, was how to optimally reveal the practical aspects.

Dr Mircea Dologa attended New York University and Cooper Union School of Engineering and Science in New York and graduated from the latter with a B.S. in Theoretical Physics. He obtained his Doctorate in Medicine from the School of Medicine in Paris. He also took MBA courses in finance and business management at the University of South Carolina in Columbia and at the French School of Business and Finance (HEC Paris France). After holding the positions of Medical Director and later of General Manager, in 1992 he decided to focus exclusively on his investments and since then he has devoted his activity to financial markets. He lives with his wife and two daughters in Paris, France.

The below reviews pertain to Volume 1

Breakthrough studies of Integrated Pitchfork Analysis

"Dr. Mircea Dologa picks up where Dr. Alan Andrews left off in his breakthrough studies of 'pitchfork' pattern analysis. In his new book, the author has taken the interpretation and application of 'pitchfork' patterns to an entirely new level. After studying Dr. Dologa's well written and very well illustrated book I will never look at a chart the same way again. What Dr. Dologa has done with 'pitchforks' is absolutely amazing. You've got to read it to believe it. Pitchfork patterns can provide so much practical and useful information that you will be referring to this book over and over. The book ends on a high note with an excellent chapter on Case Studies and Money Management. Traders will want to keep this powerful book handy for frequent reference. Highly recommended."

Chuck LeBeau, Director of Quantitative Analysis for SmartStops.net and co-author of *Computer Analysis of the Futures Market*, noted trader, lecturer and trading systems developer.

Integrated Pitchfork Analysis: Basic to Intermediate Level is an introductory text to the branch of Technical Analysis which uses the Andrews' pitchfork trading technique. Designed for traders with no experience of Pitchfork Analysis this book demonstrates how to analyse the markets and trade using pitchfork analysis, assisting the novice trader in achieving a consistent performance.

Written by experienced trader, Dr Mircea Dologa, the founder of www.pitchforktrader.com, the book begins by introducing and discussing the basic theory of pitchfork trading, providing a description of the technique, how to analyse the charts and how to make a decision based on that analysis. It then moves on to the more practical aspects about the low risk high-probability trade from its inception to its termination. Crucially expert guidance on money management and risk management techniques - when to get in, when to get out and where to locate the initial or trailing stops is also provided.

Ultimately *Integrated Pitchfork Analysis: Basic to Intermediate Level* will teach you how to trade, how to follow the markets and how to consistently make money.

WILEY
wiley.com

"Dr. Mircea Dologa's book, Integrated Pitchfork Analysis, combines the breadth of evolving theory with the depth of experience acquired from years of practical application, leaving almost no stone unturned in an exploration of the Pitchfork and its application to profitable short-term trading. Many of Dr. Dologa's ideas are truly innovative, reflecting his understanding of human nature. It would be difficult to find a more complete coverage of Pitchfork trading. It is a mine of (literally) valuable information."

Tony Plummer, Director, Helmsman Economics Ltd, and author of *Forecasting Financial Markets: The Psychology of Successful Investing*.

"It has indeed been a privilege for me to have access to Dr Mircea Dologa's amazing analysis which I consider to be an extremely important contribution to Technical Analysis. His development of Integrated Pitchfork Analysis in synergy with existing state-of-the-art trading tools resulting in an easy to use professional edge technique has not been previously utilized. This undoubtedly increases the improvement of trading accuracy, leading to enhanced confidence with greater profitability for both trading and investing. This book is a truly remarkable achievement in the field of Technical Analysis and Dr. Dologa, like myself, is motivated to educate traders and investors on the wonderful world of Technical Analysis and how it can help them in these volatile markets. I believe Dr. Dologa will join the true Market Masters of the 21st Century."

Dawn Bolton-Smith, Founder-Member of the Australian Technical Analysis Association, Senior Technical Analyst, Educator & Writer.

"Dr. Mircea Dologa has masterfully defined and delineated the Median Line procedure that is central to Pitchfork Analysis and trading. His basic and intermediate theory and practice is a definitive work in this important realm of technical market analysis."

Professor Oliver Henry Pruden, Professor of Business Administration and Executive Director of the Institute for Technical Market Analysis, Golden Gate University, San Francisco, USA.
